

## REMARKS

The present amendment is being submitted to eliminate the multiple dependent claims that depend from a multiple dependent claim in the priority PCT patent application.

The PCT patent application was filed with 14 claims. An amendment (copy enclosed) filed during the pendency of that PCT patent application reduced the number of claims to 13. Note that the PCT Preliminary Report On Patentability was based on 13 claims. Therefore the numbering of the new claims submitted herein starts with claim 14.

Respectfully submitted,  
Valery Alexandrovich Kononov, *et al.*
